WHITE vs BME (Black & Minority Ethnic) SEARCHES

Searches of White Persons	=	501 (78.5%)
Searches of BME Persons	=	137 (21.5%)

NOTE RE PROPORTIONALITY

Whilst there would proportionately appear to be more searches of persons with BME backgrounds in the South Warwickshire area (21.5% search rate against 6.5% BME population), account should be taken of the fact:

- (i) The population figures were acquired from a census held in 2011.*
- (ii) Some of our current policing operations have specific intelligence relating to individuals with BME backgrounds.*
- (iii) During the last quarter, 35.3% of searched persons with BME backgrounds, were found to live outside the South Warwickshire area and 23.5% provided no address details.*
