 [Wellesbourne Police](https://www.facebook.com/WellesbournePolice)  [@WellesbournCops](https://twitter.com/WellesbournCops)

**POLICE NON-EMERGENCY NUMBER 101**  
Only call 999 in an emergency when a crime is in progress or life is in danger.

**Incidents reported during April 2021:** 327-13/04 Ettington Close, Wellesbourne

### Covid-19 regulations

Checks have been made on people who are required to be in quarantine. Reports made by telephone and online of alleged breaches of regulations in commercial premises, public places and homes have been followed up.

If you have information relating to the referenced incidents please call 101 quoting the number and date.

### Wellesbourne Area:

055-06/04 Commercial property, storage garage

Forced entry and a set of mobility access ramps stolen.

068-10/04 B4087, Wellesbourne towards Newbold Pacey

A cyclist was injured in the leg by a shot fired from a ball bearing gun by a passenger in a passing vehicle.

Warwickshire Police have arrested two males in connection with a recent spate of incidents across the area involving the use of an air weapon.

At 04:00 video footage recorded offenders entering drive and removing radiators stored in the drive of a neighbouring property.

A fake letter, addressed from Warwickshire Police, requiring the payment of a £2000 fine for breaching Covid regulations was sent to a local resident.

There was also a report of a telephone call to a local resident attempting to arrange an appointment to examine loft insulation.

Speed checks have been carried out in Loxley Road and Ettington Road, Wellesbourne and Charlecote. A few individuals will be receiving a ticket or letter in the post shortly, including one who thought it was acceptable to remove both hands from the steering wheel of his work van to communicate his displeasure!

## Snitterfield Area:

131-19/04 Snitterfield Primary School

Between 15:00 14/04 and 08:00 19/04, entry to an outdoor classroom and damage caused.

117-30/04 Hampton Lucy playing fields

Between 11:30 23/04 and 10:45 29/04, roof panels of a multiplay climbing frame removed.

## Kineton Area:

094-08/04 Edgehill Road, Lighthorne Heath

Between 18:00 and 00:00 on 06/04 a nail was driven into the tyre of a parked vehicle, tyre did not deflate. Nails in other tyres discovered when car was serviced.

## Burton Dassett Area:

358-22/04 Burton Dassett Country Park

Report of an incident where a driver encountered another vehicle approaching on a narrow track. The other driver was aggressive and threw a bottle at the informant's car as well as deliberately making contact with the front bumper. Vehicle registration reported.

Rural Crime Team Specials have been carrying out joint engagements and patrols with Wellesbourne SNT particularly targeting illegal off-road bikes in the South of the County.

Warwickshire Police has announced that every business and organisation in the region can now get access to a free tool called Police CyberAlarm, designed to help them understand and monitor the threats they face from malicious cyber activity. Funded by Government, Police CyberAlarm acts like a 'CCTV camera' monitoring the traffic seen by a businesses' connection to the internet. It will detect and provide regular reports of suspected malicious activity, enabling a business to take steps to improve their cyber resilience. Once a business or organisation becomes a Police CyberAlarm member, they will need to install the 'CyberAlarm Virtual Server' which will then collect and process traffic logs identifying suspicious activity from the firewall.

Police CyberAlarm does not see any of the content of any network traffic. It monitors the logs relating to the traffic to identify suspicious activity. It is designed to protect personal data, trade secrets and intellectual property.

Police CyberAlarm can benefit any business with a computer network including SMEs, organisations, public and private sector, charities, education establishments and local government.

As a Police CyberAlarm member, they will benefit from regular reports detailing suspicious and potentially malicious activity on their firewall/ internet gateway. It will show them how they are being attacked, and from where, so they can improve their cyber resilience. It will also help law enforcement identify current threats and take enforcement action against cyber criminals.

The more members we have, the more data we get. This will provide law enforcement with a much richer intelligence picture about the current and emerging threats businesses are facing. The data will also be presented back to members in the form of regular reports to help them take steps to improve their cyber security.

Businesses can sign up on the [cyberalarm.police.uk](https://cyberalarm.police.uk) website. They will then receive a unique code which once added to the website will provide access to full instructions and how to install Police CyberAlarm.
