Nuneaton South SNT
Community Update

Note: more information on Coronavirus rules and guidance here: <https://www.gov.uk/> (www.gov.uk)

Hello from Nuneaton and Bedworth Safer Neighbourhood Team Sgt's.

It is now summer, but with the weather as it is you might not think so. And we have to holiday at home in this country, let us hope it improves.

As your local safer neighbourhood team we have a real passion in protecting our communities from harm and with this in mind we implore you to continue to engage with your local officers reaching out to them, reporting any issues or concerns either directly in person whilst their out on visible foot patrols or via any other suitable communications so we can advise and support you appropriately.

Alternatively you can ring 101 or report incidents online and consider the use of the charity crime stoppers (anonymously) by speaking to us, providing the right information allows us to target specific problem areas aiding in protecting you and your communities.

Please help us to help you keeping your communities safe!

As the full lockdown has not yet been lifted and now looks likely that it will be 19th July, we just need to remain focused until then in order to stay as safe as we can.

For those who like football, I hope you are enjoying the Euros.

Regarding the team, we have started to increase both proactive plain clothed and uniform operations and patrols, targeting problem areas identified to us.

We have completed several drugs warrants with some excellent results and have more planned, watch this space for further updates.

Also, facebook live events will be back this month after a short break due to the elections. Please keep an eye out for the dates and get involved.

Please follow our Social media which provides further information whilst signposting you to other partners agencies who we continue to work closely with.

It's a great way to stay informed and raise any issues or concerns you may have.

Thank you and stay safe.

PS 0946 Scruton

Nuneaton South

We are continuing to educate people regarding swimming in Ensor's pool, and are issuing warning letters to those who have been found swimming. Additionally, the area is being patrolled more frequently in order to prevent anyone from getting seriously injured.

Swimming at Ensor's Pool is dangerous because:

- It is an isolated location – help and rescue could arrive too late because of access issues.
- Cold Water Shock. Reactions may be muscle spasms and hyperventilation. Sudden immersion into cold water may cause cardiac arrest, even for a healthy person. Cold water can paralyze the muscles instantly. The water is cold enough for this in the UK even in the height of summer.
- Hypothermia. This can still be an issue even if you manage to get out of the water.
- Lack of safety equipment means that if anything does go wrong in the water there is less likelihood that people in the water will be able to get help.
- The height of a fall or jump into the water may cause back injuries.
- The depth changes are unpredictable, with hidden currents hindering even the strongest swimmers.
- Underwater objects and hazards may not be visible which may be harmful to you.
- Water quality, e.g. toxic algal blooms and industrial/agricultural pollution.

SNT are currently working alongside shops assisting with issues and correcting misunderstandings regarding face coverings. Although we are easing with lockdown, it is still mandatory at this time to wear facemasks in some indoor areas such as shops and supermarkets, unless you are exempt. Please be mindful for those who are exempt from wearing face coverings, and wear a mask if you can. Check the government website for more details by following the link below:

<https://www.gov.uk/government/publications/face-coverings-when-to-wear-one-and-how-to-make-your-own/face-coverings-when-to-wear-one-and-how-to-make-your-own>

Extra patrols are being conducted around kick off time for the Euros around the local pubs to make sure that everything is running fine so you are able to enjoy the football without any issues.

Update on Our Priorities

Ensor's Pool

Thirty-two warning letters have been posted out to the parents/guardians of children that have been found to be either swimming or with others who were swimming in Ensor's Pool. There are many dangers that are associated with swimming there, so we are focusing our patrols in that area to keep members of the public safe.

Motorbikes

We have seen a drastic drop in calls and issues regarding issues relating to motorbikes, which is an improvement on previous months as we continue to patrol, and give warnings to those using bikes in an antisocial manner. However, a few individuals are still riding them in an antisocial and unsafe manner. Please continue to report incidents regarding motorbikes driving dangerously either through 101 or <https://safeinwarwickshire.com/tag/dob-em-in/>

Monthly Message from Hill Top, Arbury & Attleborough Officers...

With less than a month until the Covid restrictions are likely to be lifted, the warmer weather coming in, and England's surprise win to get to the next stage in the Euros, there is a lot to celebrate about now we are heading into the summer. We would like to take this opportunity to thank you all for sticking with the Covid regulations, but to keep staying safe going forwards.

There are other ways you can stay safe in the upcoming summer months along with following the Covid guidelines. If you are going out and celebrating by drinking alcohol, make sure you are aware of your limits and know when you have had too much to drink, as drinking too much can make you sick, and in some cases lead to alcohol poisoning. It is always best to celebrate with friends so you can keep an eye out for each other in case you are developing symptoms. These include irregular or slow breathing, pale or blue skin due to low body temperature, and being unresponsive or passing out. If you think a friend has alcohol poisoning, call 999, and make sure to stay with them.

As the heat increases there is always a want to cool down, which some people do by taking a dive into Ensor's Pool. This is dangerous due to the lack of safety equipment, a potential for hidden currents, and the location meaning that emergency services may take longer to get to you if something does go wrong. We have issued a lot of warning letters to people who do take a swim there, so they are more aware of the dangers. There are a lot of other ways to cool down while also staying safe, including by taking a splash at your local leisure centre, getting an ice cream or two, or by wearing loose clothing and a sun hat.

Enjoy the sunshine, watch out for each other, and stay safe.

-PC Newman

RECENT COMMUNITY CONCERNS....

If you think you may have seen or heard anything suspicious or have any information about any relevant incident please call Warwickshire Police on 101 or report online at www.warickshirepolice.uk. Alternatively you can call: **Crimestoppers** anonymously on **0800 555 111**

EVENTS

We will be organising free bike coding events which will be taking place in the near future. Please check our Facebook on Nuneaton and Bedworth Police as we will be posting the date, time, and location on there.

Additionally, speed checks will be conducted around the local speeding hotspots, and section 59s will be issued where necessary.

For any further queries please do not hesitate to contact our PCSOs
